

Dear Representative Caltagirone,

I am requesting an appointment to meet with personally you at your Harrisburg office and at your earliest convenience concerning the Impeachment Petitions that I filed against two extremely corrupt county judges.

As you are aware this matter has been brought before the House Judiciary Committee for seven consecutive years and absolutely no actions have been taken to remedy this horrific situation. Additionally the state attorney general's office and local district attorney have engaged in a conspiracy of silence to assure that these judges are never brought to justice.

In essence, and in light of the obvious cover up of the willful and deliberate crimes that these judges committed against me and my daughter I think it is only fair at this point and time to hear an official explanation from you in person as to why these judges have been given the privilege to be held above the law.

I have copied the same to representatives Rick Geist and Jerry Stern and am requesting their assistance to secure a meeting with you at your Harrisburg office.

In advance I thank you for your time.

Sincerely,

Robert G. Kearns, Jr.

Stephanie's dad
