August 12, 2006

Dear District Attorney Richard Consiglio,

Following through with a letter I received from the attorney general's office (letter attached), I bring this matter of outrageous judicial corruption to your attention. Since you were actively involved in my case as a custody master in 1997, I am sure you remember the systematic judicial, medical, and psychological abuses that Dr. Nancy Baker, Illisa Zimmerman, Esq., Darlee Sill, Esq, and Jolene Kopriva had visited on my daughter (Stephanie J. Kearns). Perhaps you remember when Stephanie was fraudulently railroaded into the Meadow's Psychiatric Center through the collusion of Ms. Baker, Lou Ann Frederick, and Jolene Kopriva. I can assure you I will never forget it for the rest of my life. Remember the mother's violent knife point abduction of Stephanie that was never addressed by CYS or Blair County law enforcement. Attorney Donald Speice assured me that none of these criminal acts were going to be left go unaccountable. Of course at that time I didn't realize that Mr. Speice was luring me into his family court cleanup scheme and was using me and my daughter to move his personal agenda forward. In his own words he needed a client that was willing to fight.

What I have pieced together over the years is that this whole corrupt and abusive mess encompassing my custody case was orchestrated, and maintained by Mr. Speice in order to expose Dr. Baker's biased fraudulent practices, and to ultimately have her removed from the court system. Still not satisfied with those results and carrying it a step further, Mr. Speice decided to play God and clean out the entire corrupt Blair County custody system by targeting Jolene Kopriva and Hiram Carpenter. Again this escalation required sacrificing Stephanie even more and keeping her emotionally and medically abused to advance his agenda. He often refereed to my custody case as playing the game, one step at a time. However, once Dr. Baker was removed from the system and judges Carpenter and Kopriva remained unscathed, Mr. Speice needed to bail out while keeping the appearance of his loyalty and credibility before the court that he set out to dismantle. Regrettably this didn't happen until Mr. Speice had Mr. Carpenter put on my case. Only being concerned with job security and protecting himself Mr. Speice's plans did not incorporate safeguards nor a fair and just exit strategy for Stephanie. In short, Mr. Speice and Mr. Sill suddenly decided that a joint custody agreement would absolve their involvement in the

case (basically setting everything back to square one), leaving Stephanie and I holding their dirty bag of laundry which they accumulated and instigated for over four years.

To win my confidence and approval of a joint custody agreement Mr. Speice convinced me that Dr. Baker's, CYS's and the court's unethical and underhanded tactics were going to be set right because there was an ongoing county investigation into Dr. Baker's and Judge Jolene Kopriva's business relationship. He even suggested that a dwindling group of brave lawyers organized against Kopriva and Baker and were already interviewed by investigators. Yep, the same day Speice and Sill arranged the joint custody agreement Mr. Speice took me outside on the courthouse porch and explained that district attorney Haberstroh had just informed him that morning the county investigation was being "kicked up to the next level". Mr. Speice even offered that he wanted to be part of a civil lawsuit against Dr. Baker should I decide to sue her.

Unfortunately for me and Stephanie, Mr. Speice had either totally lied about this alleged investigation or it was dropped shortly before or after the joint custody agreement was devised. In any case, the price for sacrificing Stephanie and torturing her emotionally was too costly for trying to change a corrupt custody system that is inherently broken.

The following complaint details several issues and instances of judicial corruption perpetrated under color of law within the Common Pleas Court of Blair County, Pennsylvania, and its appendage Blair County Children and Youth Services and numerous practitioner's in the mental health industry. I am again bringing forth this complaint in hopes and expectation that the imbedded corruption evidenced within will be revealed, and that those participating in said corruption are brought to justice and prosecuted accordingly. The ramifications of the evidenced corruption, if left unchecked, reach far beyond the scope of this complaint.

I prolonged filing this complaint with state and county law enforcement primarily because of a stream of misinformation I received from third party sources alleging that a most recent FBI investigation was ongoing into the Blair County Court system regarding this very complaint. According to information I was given by news media reporters was that the FBI was already investigating my case and at least twelve others after learning my former attorney (Anthony Zaroni) conspired with court officials to botch and thwart my Superior Court appeal. However, at this point and time I also believe that information to be misleading, or like the county investigation the federal investigation was also prematurely dropped during its course. I guess protecting one corrupt judge is worth destroying a thousand kids. Everyone has to be of one mind and in lockstep for an

effective cover-up to work. To the best of my knowledge Judge Carpenter's court stenographer Sally Zeek was the only participant in the Blair County Court crime spree that was removed from her courthouse position under the pretext that she turned state's evidence in exchange for immunity from prosecution. It was further brought to my attention that several former courthouse employees (deputies, etc.) went on official record verifying that court records in Blair County are routinely altered to "fix" cases. From a victim's standpoint, immunity without arrest and prosecution amount to a mere token gesture that does not remotely provide substantial justice to the several victims of these actor's heinous crimes.

The violations of state, federal, and constitutional laws that this complaint encompasses goes well beyond a solitary issue of Public Corruption. In fact, a detailed analysis of the entirety of this matter will yield evidence of a host of criminal actions and unethical activities perpetrated against me and my now 19 year old daughter (Stephanie Kearns), and undoubtedly upon countless other similarly situated Citizens of Blair County, by actors for the commonwealth operating under color of law for the purposes of profit and reward. A cursory reference of federal and commonwealth statutes by this Citizen has uncovered several instances of capricious disregard for said statutes by said actors for the commonwealth. Indeed, these actors ignore the very rules of their own system of justice mandated by the constitutions that they have pledged a sworn oath to uphold and defend. The scope of these actors' criminal activities may include but are not limited to:

- PUBLIC CORRUPTION,
- CRIMINAL CONSPIRACY
- ORGANIZED CRIME/RICO VIOLATIONS,
- WHITE-COLLAR CRIME,
- CHILD ABDUCTION,
- PERJURY,
- MALICIOUS PROSECUTION and/or ABUSE OF LEGAL PROCESS,
- OBSTRUCTION OF JUSTICE,
- JUDICIAL FRAUD,
- ABUSE OF OFFICE,
- MULTIPLE CIVIL RIGHTS VIOLATIONS including GENDER DISCRIMINATION,
- MENTAL HEALTH CARE FACILITY ABUSE,
- FALSE IMPRISONMENT,
- MEDICAL ABUSE,

The enclosed appendages more fully defining this complaint are lengthy and comprehensive, yet their voluminous pages are not all-inclusive of the matter. Additional details in the form of copies of my served documents, and letters from my last former attorney, etc., are provided to assist in your prima facie review of the matter.

Statements of facts are attached hereto, and presented in four documents as follows: (1) an affidavit of my story (case history), (2) an impeachment petition filed with the Pennsylvania House of Representatives against Judge Hiram A. Carpenter, III, of the Blair County Court, (3) an impeachment petition filed with the Pennsylvania House of Representatives against Judge William J. Henry, of Jefferson County, Pa, acting as a visiting judge in the Blair County Court, and (4) a private criminal complaint previously filed with the Blair County District Attorney's Office against Attorney Anthony Zanoni. I have further enclosed three photos of my daughter Stephanie Kearns before and after her involvement with the Blair County Family Court system evidencing her progressive inhumane treatment and agonizing emotional and physical systematic destruction. I have also enclosed two letters from my former attorney, Anthony Zanoni evidencing that he indeed conspired with Blair County Court officials to destroy and purge this complainants appeal of two Blair County Court orders that were poised before the Pennsylvania Superior Court for review.

By far, this matter I bring to your attention is not a victimless crime. There has been serious human injury and dire consequences as a result of the Blair County Court's criminal activity. During custody hearings in the year 2000, Judge Hiram Carpenter callously uttered the words that the custody decision he will make is going to dramatically change the rest of Stephanie Kearns' life. In reinforcement of that statement, on April 10, 2000, Judge Carpenter illegally and recklessly quashed a mandated Children and Youth Services child abuse investigation against Stephanie's mother and half sister for severely beating her up in a bathtub on Easter Sunday. Without an earnest CYS inquiry Stephanie Kearns was left in the precarious predicament of having to live and survive with her abusers. To cover up for this long term physical and emotional abuse, Stephanie has been spuriously labeled and provided situational made-to-order and adaptive fabricated symptoms of psychological disorders which have subsequently facilitated her being dangerously psychotropically drugged for an additional six years. All done and instigated by a mother, who herself, has blatantly displayed symptoms of Munchausen by Proxy. Stephanie has been unduly convinced during this time period that she is mentally ill. She has been subjected to constant brainwashing to make her believe that her father and paternal family abandoned her and wants no part of her life. Because of the judicial and

psychological abuses, she has been placed in a Individualized Education Program in the Altoona Area High School and has been enrolled in an emotional support and an anger management program. Imagine being placed in emotional support program while the very conditions that cause the emotional problems are being side stepped, maintained, and exacerbated. Stephanie who was an above average student did not graduate high school this year for unspecified reasons, and has been most recently supplied a prognosis by a psychiatrist of the "mother's choosing" that she will be unable to provide for herself during the rest of her life without the care and constant involvement of a parent.

In essence, the painful reality is that Stephanie is being held a prisoner in a condition of Bedlam and false imprisonment in her own residence. Against her wishes she has been isolated from the entire paternal family for six years. She has been deprived of any telephone contact or written communications with her father and family. The mother had installed call blocking and call gate services on her telephone system to shut Stephanie off from making or receiving any outside world contacts that are not pre-approved. Stephanie's classmates reveal that she is not allowed to travel beyond the immediate vicinity of her residence without her mother or a member of the maternal family escorting her. She is not allowed to have no more than one friend in her life which is kept under close and constant monitoring by her mother. Stephanie has been forbidden to acquire a drivers license simply because she has told her mother that she will visit her father and family when she turns eighteen. All this endless cruelty, hurt, suffering, and destruction of human life because a malicious and vindictive judge (whose crimes have been enabled and shielded by the legal system) deprived Stephanie for no legitimate reason all contact with the paternal family that she loved and was raised with.

The corrupt judicial system and Mr. Speice's game severely broke Stephanie's childhood and now young adult life. For six years I anticipated that a fitting and proper investigation into these crimes would have released Stephanie from her hell on earth. Unless law enforcement authorities step in and put an end to it, the emotional and psychological abuse will continue unabated for Stephanie for the rest of her life, or until her mother is dead. I am asking the law enforcement authorities to seek the release of Stephanie from her bondage and provide her substantial fairness and justice by bringing the perpetrators of these crimes to justice.

I anticipate and appreciate your office's cooperation, integrity, and professionalism to provide even a semblance of justice in this matter. If your office should require anything additional, please do not hesitate to contact me. I am at your service.

Respectfully,

Robert G. Kearns, Jr.
