January 3, 2001

Dear Attorney Litman:

I had contacted the *United States Department of Justice* in Washington, D.C. involving a serious matter that originated with custody litigation. I was told that you may be able to help me with my problem.

Because it would be impossible to write my story in this letter I have enclosed 3 completed private criminal complaint forms I filed with the district attorney's office in Blair County, Pennsylvania on January 3, 2001.

However, my complaint of crimes against my daughter and me has risen above Pennsylvania criminal statutes. Our civil rights have been trampled into the ground by the Blair County Court, system.

In all fairness, I should inform you of my belief that there is an ongoing state investigation of my case for approximately the last three years. Again these are only my suspicions and my daughter and me has been allowed to suffer an unbearable hardship in its wake. Something or someone has to bring this matter to a just end.

If you would take the time to read the enclosed complaints it would be my sincerest hope that you could be of help to my daughter Stephanie and me.

Very truly yours,

Robert G. Kearns, Jr.
