Dear District Attorney Richard Consiglio,

On August 12, 2006, I sent you a letter complaining of multiple crimes acted out by the Blair County Court system and my daughter's mother Ms. Lou Ann Frederick. The original complaint is attached. While I don't expect much from law enforcement and the judicial system these days it was my hope that you would have taken this complaint serious enough to investigate, at least, the mother. My 19 year old daughter needs to be rescued and released from her residential and emotional prison. Judge Hiram Carpenter and Ms. Frederick has all but destroyed this young lady's mind and body. This abuse must be stopped. It seems to me that this would have been a simple matter that could have been wrapped up in 48 hours or less, with criminal charges being filed against Ms. Frederick. Perhaps the complaint got misplaced or it just slipped your mind. However, I did expect enough courtesy from your office to send a response to my request for investigation, regardless of your decision.

In search of justice for my daughter I built a Blair County exclusive website titled Court Of Injustice. Any required additional information concerning the criminal conduct of Ms. Frederick and the court can be found at the following web address.
